SUMMARY

ICT undergraduate specializing in software development with hands-on experience in web, desktop, and mobile application development. Skilled in Java, C#, JavaScript/TypeScript, React, SQL, and modern backend technologies. Experienced in developing real-world management systems and responsive web applications. Interested in software engineering, full-stack development, and emerging technologies.

EXPERIENCE

Full-Stack Developer — 2024 - Present

Self-employed | Remote

- Design, develop, and maintain responsive web applications and software solutions.
- Work with clients to transform conceptual designs into functional, live projects.
- Develop full-stack solutions using modern web technologies and Node.js.

System Developer & Database Manager — 2024 - 2026

Sagacious Holdings | Hybrid

- Developed and maintained core software systems for company operations.
- Managed database management systems (DBMS) with a focus on performance, reliability, and security.
- Supported the development and optimization of software solutions for company assets.

Android Systems Developer — 2020 - 2024

Sony Mobile LK | Remote

- Contributed to Android system development and device software customization.
- Worked on kernel optimization testing and customized Android operating system builds.

PROJECTS

Sagacious Ice Factory Management System

React, Vite, Tailwind CSS, Supabase, PostgreSQL

- Developed an enterprise ERP and POS system for ice manufacturing and distribution.
- Implemented inventory, sales, customer, debt, reporting, PDF invoicing, and RBAC.

SAGA Washing Center Management System

JavaScript, Supabase, PostgreSQL, Netlify

- Developed a business management system covering orders, customers, financial operations, and reporting.

CampusConnect – University Management System

C#, WPF, SQLite

- Developed a desktop application for managing university clubs and events using object-oriented programming.

DG Travels Website

HTML, CSS, JavaScript, Responsive Web Design

- Designed and developed a responsive tourism and transportation website for DG Travels.
- Focused on clear service presentation, user-friendly navigation, and responsive design.

EXTRACURRICULAR ACTIVITIES

- Played CTF at CryptX2.0 Organized by University of Sri Jayewardenepura | 2025
- CodeFest 2026 | AI Innovation Challenge Powered by IFS and SLITT
